

CASH TRACKER™ RETAIL

Protect Every Dollar. Strengthen Event Response.

In any retail environment, cash will always prove to be an attractive target for robbers. Cash Tracker™ for Retail helps protect cash in any retail environment by providing law enforcement with real-time location intelligence to recover stolen currency, improve response times, and support the apprehension of offenders.

Cash Tracker™ combines patented location intelligence, automatic activation, and **DirectToDispatch™** in a covert device built to protect cash and support recovery.

MORE THAN A GPS ALERT

DIRECT TO DISPATCH Once activated, it silently alerts security teams and provides location updates every six seconds using GPS, Cellular, WiFi, and RF technologies. Through DirectToDispatch™ live tracking data, video, images, audio, license plate data, and other evidence can be securely shared with local police dispatchers to help officers respond faster and improve recovery outcomes.

Cash Tracker™ does more than report a location.

SUPPORTS A WIDE RANGE OF RETAIL CRIME EVENTS

Cash Robbery

Smash-and-Grab Theft

Organized Retail Crime (ORC)

Cash Larceny

Burglary & Break-In Investigations

Flash Robbery

Long-Term Investigation

Recovery & Apprehension

KEY PRODUCT FEATURES

- Protects cash where it is stored with thin and flexible packaging, DIY installation, and inductive charging
- Motion-activated device silently reports to the 3Si tracking platform, and local police when needed, delivering GPS, cellular, and Wi-Fi location updates every 6 seconds
- Extended battery life, daily battery checks, semi-monthly health checks, and signal-loss data storage ensure reliable performance during extended investigations
- Text and email alerts provide real-time activation and device status notifications, while RF technology enables final location pinpointing
- DirectToDispatch™ shares GPS data, video, audio, images, license plate data, and other evidence, giving dispatchers and responding officers greater situational awareness through a secure dispatch pathway
