

SURVEILL

BY **3Si**

The Surveill by 3Si product line delivers advanced video management solutions that enhance situational awareness and business intelligence, enabling rapid event verification and strengthening safety and security.

SURVEILL EXECUTIVE

The Easiest Solution for Mid-Sized Businesses

Surveill Executive is the Next Generation Video Management Software (VMS) and situational awareness platform for five independent sites. It includes unlimited multiple server capabilities, integrations, redundancy, our 2D visualization mapping package, and automation. Servers have the ability to cluster with other servers on the LAN. Surveill Executive is for mid-sized and large-scale installations deployed across multiple locations in need of high availability/uninterrupted video recordings and failover recording servers.

WHY SURVEILL EXECUTIVE?

CUSTOMIZABLE

Take advantage of other certified integrations using the customizable open platform of Surveill VMS.

SCALABLE

Scalable to unlimited cameras across 10 locations anywhere in the world.

SECURE

Surveill Executive provides the support you need to protect against internal and external threats across all of your locations.

Multiple Sites

Flexible enterprise capabilities, integrating with unlimited cameras so every access point is covered and no event is missed.

Unlimited Cameras

Provides the ultimate scaling capabilities for multiple sites. Integrate as many cameras as you need.

Alarm Management

Alarm management that links with E-Maps to add an accurate visual representation for first responders.

Simple Licensing

No headaches, no math equations, no complex budgeting. We've simplified the process of VMS purchasing.

Tailored to You

Surveill Professional provides the added benefit of a customized environment, offering integrations with non-certified, third-party solutions.

Technology Integrations

Technologies certified to use alongside Surveill VMS, tested and proven to work cohesively in any environment.
