### STORY OF THE MONTH

#### Retail Store – Linden, CA – July 31, 2025

A surge in product thefts at a California retail store prompted the proactive deployment of 3Si trackers. On the night of July 31, a significant quantity of merchandise was stolen. Thanks to the 3Si tracking technology, local law enforcement was immediately alerted and responded to the signal. Officers were led to a nearby property, where they recovered some of the stolen merchandise along with additional stolen goods from a nearby vehicle. Three individuals were taken into custody, and a partial recovery of the stolen items was achieved. This swift resolution was made possible through effective coordination between law enforcement and security personnel, stopping an active string of thefts and reinforcing the importance of proactive security measures.

During a violent robbery at a pharmacy, a male suspect assaulted a clerk and forced access to a safe containing cash. The signal directed law enforcement to a nearby apartment complex where the suspect's vehicle was located. Officers identified the specific unit he had entered and detained him without incident. A warrant allowed a full search of the premises, which led to the recovery of the stolen funds and clothing taken in the robbery. The suspect, already on probation for prior offenses, now faces multiple charges including aggravated battery and armed robbery.
