TOP ATM STORIES

1 ARREST
AND FULL
RECOVERY
\$150,000

ATM – Lakewood, CO – July 18, 2025

Two suspects carried out a targeted robbery on a technician who was servicing an ATM, stealing the contents of the ATM, including a **3Si Cassette Tracker**. The tracker began transmitting immediately, guiding law enforcement to the location of one suspect. A large portion of the stolen cash was found in a backpack on the suspect at the time of arrest, and the evidence was later located in a nearby trash bin with the help of the 3Si tracker. One suspect remains at large, but the immediate arrest and substantial recovery have significantly disrupted what investigators believe to be an organized crew responsible for similar crimes.

CRIME
DETERRED

ATM – Toledo, OH – June 26, 2025

An attempted theft targeted an ATM. An **ATM Tracker** and other security backups immediately started reporting the incident. The 3Si ATM Tracker began transmitting its location, assisting authorities in securing the scene. Local officers responded based on the tracker's location data and secured the ATM. The entire unit and its contents were successfully recovered, resulting in a full recovery of \$80,000. The investigation is ongoing.

PARTIAL
RECOVERY
OF
\$80,000

Bank – Carlisle, ON – April 24, 2025

Three suspects attempted to steal an ATM from a bank by towing it with chains attached to a pickup truck. The ATM, equipped with **ATM Trackers**, was dragged from its foundation and later abandoned in a field. Police were able to track the ATMs directly and recovered the full ATM unit valued at \$80,000.

CASH
RECOVERED

Bank – Gambrills, MD – January 17, 2025

An ATM burglary at a bank involved multiple 3Si **ATM Trackers** and **Cassette Trackers**. Police believe multiple suspects were involved in accessing the ATM's cash. Police were able to recover the cash, totaling \$80,000. The other devices reported movement, providing valuable leads for law enforcement. The suspects remain at large, but the case progresses with strong evidence, positioning authorities for a successful resolution.

TOP ATM STORIES

FULL
RECOVERY
\$170,000

Bank – Brandywine, MD – December 8, 2024

A burglary targeting two bank ATMs resulted in an attempted theft of \$170,000. The suspects used a stolen excavator to dislodge two ATMs from their foundations. The suspects were only able to remove one ATM, while the other remained on-site. Both ATMs were protected with **3Si ATM Trackers**, allowing for law enforcement to watch the ATM movements. The ATM Tracker guided law enforcement to an industrial area approximately 10 miles away, where the missing ATM was found in the back of a stolen truck. Law enforcement processed the stolen vehicles and ATMs for forensic evidence, and the devices played a critical role in recovering the stolen property. The investigation remains ongoing, demonstrating how integrated tracking and forensic tools assist police in solving complex crimes.

FULL
RECOVERY
AND 2
ARRESTS

Bank – Gold River, CA – September 15

Two suspects attempted to steal an ATM in Gold River, CA early in the morning, unaware of the ATM Tracker. With the help of the tracker, Deputies quickly located the suspects' SUV and pursued them through a nearby field until their vehicle was disabled. The men fled on foot but were soon captured. A search revealed an unregistered handgun in the vehicle. Both suspects are in custody, with detectives linking them to other local crimes.

FULL
RECOVERY

Bank – Crofton, MD – July 19

Suspects approach an ATM with a skid loader, dislodging the machine from its footing. The ATM was protected by an ATM Tracker which automatically reported its direction of travel to law enforcement. The suspects load the ATM onto a truck fitted with a trailer. Responding officers followed the tracker's reported path to a wooded area a few miles from the original crime scene. Realizing the police were close, the suspects fled. The truck, trailer, ATM and cash were successfully located. The investigation is ongoing to locate the suspects
