CASH-IN-CASSETTE TRACKER™ RETAIL

Protects cash in different types of ATMs for retailers to track and recover.

For any retailers with ATMs, cash will always prove to be an attractive target for robbers. That's why it pays to protect it with **Cash-In-Cassette Tracker**. Cash-In-Cassette Tracker is a powerful tracking device that blends in seamlessly with ATM hardware. It automatically detects crime and silently starts updating its location to 3Si's advanced tracking system.

WHEN THE CRIME OCCURS

Once the tracker is activated, our own 24/7 security team and local law enforcement are instantly informed. Our advanced tracking system reports the location of the cash every step of the way while law enforcement pursues and apprehends the robbers.

KEY PRODUCT FEATURES

- Protects the ATM's cash where it is stored
- It can be installed with our ATM Tracker for layered protection, providing full ATM protection from physical theft
- Automatically triggers when criminal theft occurs and silently reports to 3Si tracking website
- Location updates from GPS, Cellular or WiFi sent to secure website every 6 seconds
- Text and email notifications of activations and device status
- Reliable performance ensured via semi-monthly health check with cellular connection
- Stores location data if the cellular signal is lost to preserve tracking data
- RF to pinpoint final device location
- DIY-friendly for installation and charging
- Simple inductive charging
