

VERSA360

Tracks and monitors assets, shipments, and covert operations with real-time GPS/GNSS and cellular technology.

The Versa360 is your ultimate solution for reliable and cost-effective covert missions. Designed to provide precise real-time tracking, it uses advanced GPS/GNSS and cellular technology, ensuring you stay informed at all times. With the flexibility to choose between Real Time and Power Saving modes, the Versa360 optimizes performance and battery life to suit your needs. Its versatile design allows easy camouflaging of assets and convenient USB-C charging, making it durable and easy to use in any environment.

SEAMLESS LIVE TRACKING

Versa360 is a lightweight, highly portable 4G tracker that reports to a dedicated portal, making it an ideal tool for self-managed and long-term investigations. The portal allows investigators to maintain complete control of their cases while collaborating with law enforcement as needed, leveraging accurate tracking intelligence to drive effective outcomes.
