

PHARMA TRACKER™

**Built for Recovery.
Powered for Investigation.**

Protect your pharmaceuticals with confidence. PharmaTracker automatically detects theft, discreetly tracks stolen inventory in real time, and helps drive faster recovery while supporting the safety of your people and your business.

Robberies of pharmacies are on the rise, putting prescription drugs, employees and customers in danger. So **PharmaTracker™** combines patented location intelligence, extended battery endurance and **DirectToDispatch™** technology to help pharmacies protect high-value pharmaceuticals and support faster recovery.

MORE THAN A GPS ALERT

DIRECT TO DISPATCH PharmaTracker does more than report a location. Once activated, it automatically provides location updates every six seconds using GPS, Cellular, Wi-Fi, and RF technologies. Through DirectToDispatch, live tracking data can be securely shared alongside video, images, audio, license plate data, and other evidence. This content is sent through a trusted pathway to local police dispatchers, allowing security teams to securely share content police can utilize while responding to events.

SUPPORTS A WIDE RANGE OF RETAIL CRIME EVENTS

Pharmaceutical Theft

OTC and High-Value Theft

Organized Retail Crime (ORC)

Drive-Through Crime

Burglary & Break-In Investigations

Supply Chain Theft

Long-Term Investigation

Recovery & Apprehension

KEY PRODUCT FEATURES

- Protects pharmaceuticals at the point of storage with multiple packaging options and DIY installation and inductive charging
- Motion-activated device silently reports to the 3Si tracking platform, and local police when needed, delivering GPS, cellular, and Wi-Fi location updates every 6 seconds
- Extended battery life, daily battery checks, semi-monthly health checks, and signal-loss data storage ensure reliable performance during extended investigations
- Text and email alerts provide real-time activation and device status notifications, while RF technology enables final location pinpointing
- DirectToDispatch™ shares GPS data, video, audio, images, license plate data, and other evidence, giving dispatchers and responding officers greater situational awareness through a secure dispatch pathway

SUPPORT & SERVICE

Our innovative solutions are supported by a world-class service organization

- 24/7/365 US-based customer support.
- On-site installation, service and training available for an additional cost.
- 24/7/365 US-based customer support.

OPTIONS

- Available in a variety of packaging designs to meet different applications.
- Configured for easy installation and use in retail environments.
- Trigger options: Motion (standard) or Tilt.

ABOUT 3Si
