

ESO[®] (Electronic Stake Out[®])

Powerful GPS Tracking to Target, Track and Arrest Criminals

Electronic Stake Out combines three location-based technologies, GPS/Cellular/RF, in a single tracking device designed to be easily hidden in frequently stolen items. When the bait item is taken, officers can covertly track the thieves giving them improved situational awareness and allowing a safer apprehension. ESO is especially effective in targeting pattern crimes and taking career criminals off the streets.

Your Partner In Cash And Asset Protection

• • • • •

Over 45 years of experience
and specialized knowledge
in the Security field

24/7 US-based support

Long-term relationships
with the industry, built on
trust and satisfaction

Partnered with over 7,000
Law Enforcement agencies

Over 10K criminals
apprehended and \$100M
in assets recovered

Only company offering
both GPS Tracking AND
Cash Protection Solutions

If a Theft Occurs... ESO automatically triggers depending on programmed options. Officers receive an immediate text alert and can access full tracking information, allowing safe pursuit and apprehension.

Features

- Multiple vessel options
- Real time ping
- Configurable trigger sensitivity, update rates, and interval reporting
- Configurable (Geo) Fences
- GPS location accurate within feet
- RF pinpoints final device location
- Stores location data if cellular signal is lost during tracking
- Tracking data stored for evidence
- Multiple options to extend battery life
- Text and email alerts
- Rechargeable battery
- Secure website for live tracking

Advantages

- Perfect for covert and mobile applications
- Automatically tracks after activation
- Can link multiple devices to specific fence locations
- Can suppress alerts in geo-fenced locations
- Multiple technologies pinpoint device location
- Device hibernation and wake up programmable to save battery
- Reliable performance in Urban Canyon areas
- Highly configurable to meet the type of crime and battery life needed
- Easy to use and maintain

3SI Security Systems offers proven GPS tracking solutions that combine aided GPS, Cellular and Radio Frequency (RF) location technologies with a secure tracking website. Available in a variety of designs to track all types of valuable assets, our system has led to the recovery of millions in stolen cash and assets.

Our cash protection solutions use ink, dye and smoke to help stop crime and catch criminals.
