Innovation That Protects

SecuriSense™

Adding intelligence to cash machine protection

Globally, ATMs and similar machines are under ongoing threat from many types of attacks. SecuriSense is an innovative solution to detect and deter against attacks such as cutting, drilling, grinding, hammering, pull out or explosive gas. It continuously monitors the ATM, and if an attack is detected, the unit triggers and communicates with the ATM or an interfaced solution.

Your Partner In Cash And Asset Protection

Over 45 years of experience and specialized knowledge in the Security field

24/7 US-based support

Long-term relationships with the industry, built on trust and satisfaction

Partnered with over 7,000 Law Enforcement agencies

Over 10K criminals apprehended and \$100M in assets recovered

Only company offering both GPS Tracking AND Cash Protection Solutions

If a Theft Occurs... SecuriSense will detect the attack and communicate with the ATM or to an interfaced solution, such as 3SI ink-staining systems (SecuriDab® or Scorpion®) or 3SI GPS tracking system (ATM Tracker™). The system can optionally activate sirens or flashing lights, and/or display a message on the ATM screen to inform the criminal that the attack has been detected.
