

Asset Tracker™

Protects all types of high-value assets with GPS tracking configured to your needs

Asset Tracker protects all types of high value assets targeted by thieves. The device is highly customizable based on the asset and how it will be protected.

When the Crime Occurs

The Asset Tracker covertly waits and automatically activates when the crime occurs. Once activated, our own 24/7 security team and local law enforcement are instantly informed. Our advanced tracking system reports the stolen asset's location every step of the way while law enforcement pursues and apprehends the thieves.

Features

- Multiple vessel options
- Configurable trigger options, update rates, and interval reporting
- Precise GPS, Cellular and RF location technologies
- Configurable (Geo) fences and alerts
- Stores location data if cellular signal is lost during tracking
- All data stored for evidentiary purposes
- Secure website for live tracking
- Text and email notifications
- Perfect for covert and mobile applications
- Easy to use and virtually no maintenance required
