SecuriDab® LT

Protects cash handling machines against attack

Cash stored in cash handling machines like ATMs continues to be a target for criminals globally. Drilling machines, fork lifts, and grinding discs are just a few of the methods used to attack these machines and steal the cash. Banks, ATM owners and manufacturers struggle with how to protect cash against physical ATM attacks in a secure yet economical manner.

When the Crime Occurs

SecuriDab LT will automatically detect the violent attack and indelibly stain the cash in the cassette rendering it worthless to the criminal.

Features

- Automatically stains the cash when the machine is attacked
- Provides protection against physical attacks
- Technology is integrated into the lid or body of the cassette and is invisible to customers and criminals
- Protected cassettes are easily identified by authorized personnel
- State-of-the-art inks with markers guarantee optimal staining performance and traceability
- Compatible with popular electronic locks and automatically arms and disarms the system, removing the need to manage physical keys or remote controls
- Clear visual and audible signals prevent accidental activation
- Simple integration by customers either as a preassembled solution or as an easy-to-configure kit of parts

3SI Path to Asset Recovery

Machine Attacked	SecuriDab LT Detects and Confirms Attack	Warning Sounds	Ink Released into Cassettes	Cash Rendered Worthless to Criminal and Recovered

Risks Covered

- Pull out
- Break in
- Opening by force
- Unauthorized opening
- Drilling/Cutting
