

Tray Tracker™

Protects various types of inventory in retail locations

Tray Tracker is a flexible solution designed to help retailers address specific crimes/crime patterns in their stores. In the event of a robbery or burglary, law enforcement can track and capture the criminals, recover the stolen products and deter future crime.

When the Crime Occurs

Tray Tracker automatically triggers a silent theft alert upon motion. The GPS tracking information is accessed by local law enforcement allowing safe pursuit and apprehension.

Features

- Covert design
- Triggers automatically with motion and silently reports to 3SI tracking website
- Location updates to secure website every 6 seconds via GPS, Cellular or WiFi
- Reliable performance ensured via daily battery check and semi-monthly health report with cellular connection
- Text and email notifications of activations and device status
- Stores location data if cellular signal is lost during tracking
- RF to pinpoint final device location
- DIY-friendly for installation and inductive charging
